As One Goes Around

He was just a strapping young fellow when I saw him last. I had missed him and he came, unexpectedly into the room the other day. He was now a well-advanced Army officer, but he lacked his old spirit. This was so pronounced I decided I had best "kid him along" and inform him how well he looked. He did not make any reply. A melancholy shake of his head was all I got in recognition to my remark. He bent down and rolled his trousers up above his knee.

The sight startled me.

From the covering at the top of his sock, up, his skin was perfectly leopard-like. He was almost covered by dark, ugly-looking, blue spots; there were literally hundreds of them. I did not wish to embarrass him. I felt certain he would talk. I followed the example he set for me early in our meeting—I, too, simply shook my head. "I got it (and he told me where) and I have tried everything. It is some tropical skin infection. It aggravates me considerably. The Army Doctors have tried everything, but I have had no relief—there are hundreds of the same kind of cases. None of them have been helped. The spots spread and they itch. An exhaustive research is being made to find a cure, but, up to now, none has been found." Again I looked at the ugly spots that ran from his ankles to his thigh. "I am marked like that all over my body and I am getting worse." Then, in a voice that seemed almost submerged by despair, he said: "I hope they do not show up on my face." He could not tell me if it was the water, or a jungle infection that brought on his predicament, but he roundly cursed the South Pacific as being no fit country for a whiteman, although he said he had been on islands lovelier than he had ever seen before. When he got up to leave I stood with him and shook his hand and told him I hoped the annoyance would clear up. He gave my hand a strong grip, but he made no reply.

Once more I observed the melancholy shake he gave his head. As the door closed behind him I continued looking in the direction he had gone and, I guess, it was my subconscious mind that did it, but, be that as it may, I caught myself repeating the uncanny shake of the head I saw my departing friend engage in when he first arrived.

In Lake county a few weeks back, portions of three guns were dug up and there was a lot of speculation concerning how they came to be where they were found. There hovered around the portions of the guns a conclusion that, at the place they were discovered, white men had once made a last stand against warlike Indians. It was accepted a long-ago massacre had taken place at the spot, but a pioneer resident, Wirt Young, became interested and examined the weapons, or what was left of them, and recalled incidents which had taken place in that locality and, according to Mr. Young's memory, one "Fresno Joe," an Indian halfbreed with the reputation of having been connected with bandit outfits in California Argonaut days, in the early 1890s was a resident at the Indian rancheria then near the Wirt Young place, in the flat to the north of the old damsite in Lake county. "Fresno Joe" went to Jerusalem Valley where he murdered a man named George White, who had a homestead there. He took the body of Mr. White and buried it in a sand bank near the creek. In time, Mr. White's brothers, who had adjoining homesteads, became alarmed at their brother's absence and started a search, discovering the body when one hand was found protruding from the sand. Mr. White's two guns and a watch were stolen from him and "Fresno Joe" was later arrested when the watch was found in his possession. (The guns of Mr. White were not found.) This evidence convicted him and he was sent to San Quentin where he subsequently died. "Fresno Joe" is believed to have killed Mr. White, stolen the guns and the watch, and hidden the guns on the ridge above camp before returning to the rancheria. These are two of the guns, whose rusted metal sections were found recently and started the massacre story. "Fresno Joe" had no opportunity to return and dig up the weapons he left on the ridge after he murdered Mr. White. The guns lay under the earth and leaves a half century and eventually were found by a party who went to the spot to gather flat rocks. About the same time Mr. White was murdered a Chinaman who ran a vegetable garden in that section, was murdered by "Fresno Joe" and the third gun found was, probably, one owned by the murdered Chinaman. However, "Fresno Joe" never admitted killing the Chinaman.

SECOND TIME COMPANY HAD BAD ACCIDENT

Round Valley Electric Plant Handicapped Friday

QUICK ACTION IS HAD

Power Was Restored Within Short Time Therafter

COVELO, March 26.—Mr. and Mrs. Martin Brown and son, Robert, who have passed two or three years in Redding are moving back to Covelo.

Has Returned Home

Mrs. George Short who has been visiting the past week with relatives and friends in Covelo has returned to her home on Bald Mountain.

Mr. and Mrs. Loren Long of Buck Mountain are in Covelo today, Friday.

Bride-to-Be Visits

Miss Ida Mae Yates of San Francisco and her fiance, Ensign C. S. Colvin of Berkeley, enjoyed two days last week visiting Miss Yates' mother, Mrs. James Hurt, of Covelo. Miss Yates is the youngest daughter of Mrs. Hurt and is a beautiful young woman well known here, having grown up in this place. She is bubbling over with happiness and the beautiful diamond ring she is wearing is well worth the second glance. No date for the wedding has been set, but it will probably be in June, depending on the return of Ensign Colvin from his next mission in the South Pacific. They plan to have a church wedding in Berkeley and their many friends join in wishing them a long life of happiness.

Monument Man Calls

Fisher Kinslow, owner of the North Bay Monument Company in Santa Rosa, passed a short time in Covelo this week attending to business.

Annual Church Gathering

March 15 the final meeting of the 1944-1945 mission year of the Covelo Federated Church was held. Members gathered in the social hall at one o'clock for a delicious luncheon, served by the Mutual Aid in honor of the committee which, during the past year, had the largest attendance at its program. Georgie Riffe, chairman of that committee, and 37 other guests attended.

A Bountiful Dinner

Table decorations, made by Mrs. Stirling McReynolds, with a St. Patrick's Day idea, were very pretty. The menu consisted of chicken salad, potato chips, hot rolls, coffee and angel food cake. Mrs. Howard Marcellus ,president of the Mutual Aid, and her committee deserve much credit for the well served meal.

Meeting Well Attended

The program of the day consisted of the summing up of work of the past year by President Mary Hodge and Secretary Beatrice Lovell. Catherine Johnson's group of 37 was the second largest meeting of the year; Maude Short's group of 36 was third largest, but had the second largest offering. The average for the seven meetings was thirty-eight.

Subjects Reviewed

Missionary studies for the year were: Philippines, West Indies, Brazil, Mexico, our own South, and the Jew.

Aided by Natives

All learned much of the good accomplished by missionary work in which many took part. The reports given by downed flyers on far-away South Pacific islands where Christian natives, once cannibals and head-hunters, had come to their rescue, show us the great importance of missions throughout the world. If all peoples of the universe would live in the teachings of Jesus there would be no war!

Donated The Surplus

Our missionary offerings, besides paying all pledges, have resulted in a surplus of $50, which sum has already been put to work in the Sheldon Jackson school in Alaska.

OPENING GAME DREW THRONGS

Acorns And Hamilton Field Teams Put On Fine Ball Game

The weather man was kind to the fans Saturday and the fans saw to it none of the aggregation that loves baseball was absent from Talmage when The Oaks and the Acorns tangled.

Put It On Right.

Superintendent Rowe, of the State Hospital, threw the first ball. Mayor R .O. Foster pitched and Business Manager Spillman and State Highway Commissioner F. W. Sandelin officiated in the points. The Umpires were Tamborini and Busch. Before the start of the game the Star Spangled Banner was sung and the Boy Scouts raised the flag. The Talmage people really put on a proper setting for the game and omitted nothing to have the opening savor of big time stuff. The Hospital authorities saw the visiting teams were properly provided an unusually nice dinner.

A Dandy Exhibition.

It was a good game right from the start and resulted in a 4 to 1 score for the Acorns. The big crowd got no disappointments, real baseball was handed out from start to finish. The Oaks got only six hits but these included a home run and a pair of doubles.

Some Hard Stick Work.

Big John Marshall pitched six innings for the Acorns and held Gordon, Marty's outfit to three scattered hits. Carl "Snuffy" Monzo took over in the seventh and when he insisted on hanging his curve ball under their noses, Joe Gordon whacked one for three and Joe Marty slapped another for a single to give the Flyers their lone tally in the eighth. Gordon's wallop traveled 400 feet on the fly.

Stepped In Hole.

Patchett started the scoring for the Oaks in the third. Storti walked but was forced by Caulfield. After Marshall grounded out, Patchett lofted a 310-footer into right. "Foggy" Ottoson, a Talmage vicinity product, stepped in a hole just as he reached for the ball that dropped over the wire fence. He missed it, of course, and Patchett went for a home run, scoring Caulfield ahead.

DO SEND YOUR DONATION NOW

It Is Your Obligation To Do American Part In War

What does the Red Cross do? It is worth while to take time to examine the window in Enright's Store on State street. There are photographs of some of our boys now war prisoners in Germany, and a map showing the location of their prison camps. There is also a Red Cross food package which goes regularly to these men. And there are letters from the men themselves giving their opinion of the Red Cross.

Well Done Work.

After viewing the window we should require nothing further to convince us the Red Cross is doing a grand job. This is what General Eisenhower says about the Red Cross: "We simply could not get along without it. I consider the Red Cross an auxiliary of my Army. They are doing a perfectly magnificent job in every way." The Red Cross is doing your job—for your boy and your neighbor's boy — things which you can't do.

Do Your Share.

But you can help by giving to the Red Cross, giving more and giving now. There is an Honor Roll in front of the courthouse. On it are the names of those who are fighting our battles. There is also an Honor Roll in the Red Cross office. Is your name on it?

SANTA FE CO. BUYING HUGE TIMBER TRACT

Deal About Consummated For 150,000,000 Feet

STILL SEEKING MORE

Plan Big Operations When Hostilities Have Ended

(Special Correspondence of The Press)

FORT BRAGG, March 26.—Reports have been in circulation here some time a big timber deal is in process of consummation, but the factors in the transaction have not been made public. Now, however, enough of the facts have been allowed to get out to make it possible to state a transfer involving ownership of 150,000,000 feet, and possibly more, of timber in the Big River section is being closed by interests known to represent The Atchison, Topeka and Santa Fe Railroad.

Details Withheld.

Just what will eventually result in acquirement of this big acreage is not known, but it is almost certain the purchase will end in the land being logged and prediction is extensive operations to take the timber off the land will start as soon as hostilities are over.

Demand Will Be Great.

It is generally understood in timber circles the demand for construction material, great as it has been during the war, will be far exceeded when the time comes to restore destroyed buildings and erect the thousands of business structures and homes which have been held back throughout the years the war has been raging.

Have A Son.

Word has been received a son was born Mr. and Mrs. George Krebs at Sutter Maternity Hospital. The parents are former residents.

Aged Man Passes.

RAYMOND A. MILNE IS DIVORCED BY HIS WIFE IN RENO COURT?

Mrs. Louise A. Milne Makes Sensational Charges Against Husband — Each Had Filed A Divorce Complaint

Regarding a sensational divorce action in which a Raymond A. Milne figured, The Reno, Nevada, State Journal says: "Two minds with a single thought clashed somewhat in Reno's divorce court yesterday when two divorce actions were filed, one by the husband and the second by his wife. According to clerks at the Washoe county clerk's office it is the first time in history two divorce actions have been filed at the same time by one couple.

The Pair Involved.

The actions were Raymond A. Milne versus Louise A. Milne, and Louise A. Milne versus Raymond A. Milne.

Claims Cruelty.

In the husband's action, the complaint seeks a divorce on the grounds of extreme cruelty. In the complaint filed by the wife, the divorce is sought by reason of the defendant's failure to establish a home for the plaintiff and also by his refusal to reveal their marriage to mutual friends. The couple was married at Gardnerville, Nevada, Sept. 11, 1944. It is alleged in the wife's complaint the marriage followed four years of courtship.

Asks $250 Alimony.

Both actions seek the dissolution of the bonds of matrimony with Mrs. Milne's action asking for $250 monthly alimony in addition to the payment of $69.95 allegedly due her. Raymond Milne is represented by John Rutherford and George Lorse is the attorney for Louise A. Milne.

Mrs. Milne Got Divorce.

A later report asserts the divorce proceedings Mrs. Raymond A. Milne filed against her husband resulted in the court awarding Mrs. Milne a divorce from her husband last month. The case was tried in open Court in Department 2, Judge A. J. Maestreretti awarding Mrs. Milne the decree.

Charges She Made.

The grounds set forth and upon which the decree of divorce was granted Mrs. Milne included extreme cruelty, said cruelty allegedly consisting in Dr. Milne's failure to establish a home for her; his concealment of the marriage from mutual friends, business associates and acquaintances, and further that in violation of his obligations of the marriage contract, that Dr. Milne did openly and notoriously, as well as in a clandestine, fashion, consort with another woman in and about the City of Reno, said woman being herself then married.

A Queer Accusation.

It was also brought out in the trial, according to this report, Mrs. Milne married Dr. Milne after a courtship of over four years, at the beginning of which time he represented himself to be an unmarried man, which she subsequently learned was not true, Mrs. Milne alleges.

Destroyed Four Tanks And Six Pillboxes Of The Foe

(Special Correspondence of The Press)

ANDERSON VALLEY, Mar. 26.—Walter Richmond, local grocer, who has been in Stanford-Lane Hospital some time, was operated on Thursday morning. This was his second operation since entering the hospital and he had been given several transfusions between his surgical ordeals. Mrs. Richmond, accompanied by Mrs. Vernon R. Rawles, went to the city Wednesday to be with him and, according to reports received here, no complications followed the operation and his condition was considered good.

Hope For Best.

Many friends of Mr. and Mrs. Richmond are hoping for a complete and speedy recovery. "Billy" Brazill, son of Mrs. Richmond, is here and is assisting in looking after their store. Mrs. Ella Farrer is substituting at the Anderson Union Grammar School during Mrs. Richmond's absence. Mrs. Richmond is principal of the school.

School Vacations.

Easter vacation for schools of the valley has been cut to three days. School will be held Monday and Tuesday this week—this is being done to make the school year finish on Friday, June 8, and eliminate the necessity of holding school two days after the regular closing date. Gaskill school will not have any Easter vacation and will close at an earlier date than the other schools. Pupils of the Gaskill school do not ride on the high school bus, but are transported by the teacher, Mrs. Eva Farrer.

Mrs. Irene Sullivan, of Santa Rosa, is passing a week here with relatives.

Class Activities.

The Senior class of the local high school entertained students of the school Saturday evening. Basketball for both boys and girls, with other games and dancing provided a pleasant evening which was completed by the serving of refreshments by the girls of the class. The Freshman class took advantage of the gathering to raffle off a rabbit and a cake. Their class advisor, Mrs. Velma Farrer, had provided the cake, which was home-baked.

Considerable Chickenpox.

GOES TO HOLDEN MILL

Electrically Operated Plant Is Termed Last Word

(Special Correspondence of The Press)

MERITED PUNISHMENT

Vernon M. Whitten, of Eureka, and Myrvin Winsby, of Willits, were fined $100 each in the justice court last week when they pleaded guilty to a charge of killing a young doe out of season. They were arrested by Deputy Game Warden Floyd Loots, on the Grove ranch east of Willits. They had just killed the animal when apprehended.

WILLITS, March 26. — With practical completion of the David Holden mill here at least 50,000 feet of lumber, more than has been sawed in Willits, will be placed on the market daily.

An Electrically Operated Mill.

The Holden mill is the last word in sawmills and is an, from end-to-end, electrically operated plant. It, because of the very modern labor-saving devices employed, will be able to be operated less expensively than any plant in the county.

Big Timber Sale.

Along with the starting of the Holden mill comes a story that, because of its operation here, a deal involving some $80,000 has recently been completed with Frank Williams, for timber located on his ranch at the head of Big River and which will be sawed by the Holden mill.

Government Takes It.

As this newspaper is informed all of the output of the Holden mill is to be taken by the Government.

Being Fully Tested.

For almost a month now the Holden mill has been turning over, but mechanics are going through the entire plant, adjusting it, and when the last inspection is completed, the mill will be started operating and, it is understood, will be able to maintain a 50,000 feet a day capacity.

Easter Egg Hunt.

Sunday, if the weather permits, the annual Easter egg hunt will take place on Sherwood hill west of the high school. The Lions Club is sponsoring the frolic and there will be plenty of colored eggs for all of the children who participate. Prizes will be awarded winners.

Vacation Is On.

This week schools are having their annual Easter vacation. Both schools will resume Monday.

Mrs. Henderson Buried.

Mrs. Lillian Henderson, 77, died at Ukiah last week and funeral services were held Friday afternoon at Eversole Mortuary, Rev. Herbert Brooke of the Methodist church officiating. Deceased was born in Brooklyn, N. Y., and came to San Francisco while a girl and was here married to Charles Henderson. They came to Willits 45 years ago and Willits had been her constant home. Mrs. Henderson is survived by two children, Mrs. Elsie Kupser, of Yuba City, and Robert Henderson, of Comptche, besides several grandchildren and great-grandchildren.

Local Precipitation.

The annual rainfall up to March 22 was 36.47 nches.

With The Sick.

At Howard Memorial Hospital Frank Greene, employe of the Eden Valley ranch, suffered an axe wound in his left knee and is receiving treatment. Frank Cain, of Branscomb, is hospitalized with a fractured right leg. Mrs. Kate Barnwell is still receiving medical care but her age handicaps treatment as Mrs. Barnwell is past 90. Mrs. Anna Hansen received major surgery during the week and Frank Butts is recovering from an operation. Mrs. Fern Carter, of Covelo, was operated on Thursday.

William Butts Died.

William Butts died at his home in Ukiah Wednesday following a long illness. Deceased was about 78 years of age and resided in the Hearst section more than 60 years, where he engaged in

THE FREEWAY AND THE FREEZE-OUT

THIS QUOTED ARTICLE is from The San Francisco Call-Bulletin:

"Last January, a large group of citizens from the seven counties in the Golden Gate Bridge District appeared before the State Highway Commission in Sacramento to request that the proposed Golden Gate Freeway, or Sausalito low-line lateral, be incorporated in the state's postwar highway construction program.

"[illegible] petitioners included county super[illegible] members of the Legislature, and [illegible] of civic and commercial [illegible] substantial evi[illegible] feasibility of Marin [illegible] approach to the Golden Gate bridge, the steep-graded and potential bottleneck known as the Waldo approach.

"The commission said it was without power to authorize the freeway development; that an act of the Legislature would be necessary.

"Legal opinions then were given by the state legislative counsel and the state attorney general, both of which held that the Commission had ample authority to build the approach; that no additional action by the Legislature was necessary.

"The commissioners agreed to give the petitioners a second hearing. Meanwhile, it ordered a hasty inquiry by its engineers. The engineers reported expense of the project would not be warranted by the additional truck traffic that would use the bridge.

"At the second hearing, last week, the commission waived aside the legal opinions that had failed to support its original objections, announced its approval of the engineers' report, and there the matter rests.

"From the standpoint of national defense, the Golden Gate Freeway is important to the nation because it would eliminate a potential bottleneck to the strategic port of San Francisco. Because of this and other compelling reasons the petitioners have presented, the Legislature should issue a mandate to the State Highway Commission to include this project in the primary highway system."

In denying assistance to the Golden Gate Bridge in its appeal for the sadly needed Freeway, or modern approach, the Department of Public Works, as late as last week, acknowledged that $6,600,000 of State Highway funds had been spent by the State Highway Commission in construction of the approaches to the San Francisco-Oakland Bay bridge. These funds have not been repaid, in any part, at this time. If all goes well, but not until then, this indebtedness will not be wiped out until the last of the $70,000,000 borrowed from the RFC to finance the Oakland [illegible] bridge will have been liquidated. W[illegible] difficult to get at the exact man[illegible] [illegible] was [illegible]

from State Highway funds, and turned over to the San Francisco - Oakland Bay bridge, it is clear State Highway funds were used to the extent of $6,600,000, as the Director of Public Works admits it, and that Northern California's allotment of gasoline money has been reduced by $6,600,000 since the construction of the Oakland - San Francisco Bay bridge and that, even by exerting the wildest imagination possible, this huge sum cannot be hoped to be returned to the needs of the roads and bridges of Northern California unless [illegible] than 11 years hence!

It certainly is with poor grace the Highway Commission can take this big amount from the roads and bridges of all Northern California counties — money that rightfully belongs to the Northern California roads and bridges — and then strain at supplying funds to rectify an engineering blunder made by the State Highway Commission's own engineers, which is greatly damaging the trucking industry of Northern California, whose trucks suffer immeasurably and whose gears are destroyed in the long drag over Waldo hill and which has greatly handicapped, and today is handicapping, a more economical administration of all northern California highway traffic.

Putting it plainly, The State Highway Commission took away from northern California counties, in gasoline tax money, the sum of $6,600,000 five years ago and cannot hope to begin to return any of it for 11 years hence! Thus, in 16 years northern California counties have been deprived of the use of $6,600,000, rightly theirs, on their roads and bridges, while this big sum has been used by the Oakland-San Francisco Bay bridge and today, the very section of northern California from which this large amount was drained by the State Highway Commission for the Oakland-San Francisco Bay bridge, is in critical need of funds, and the Highway Commission uses as its alibi it has no money! But it is not enough to relate the above facts to illustrate how many millions have been shoveled into the maw of the treasury of the Oakland-San Francisco Bay bridge—This present year, from gasoline taxes, which belong and should be used in Northern California counties, the State Highway Commission will extract $1,600,000 and turn $1,600,000 over to the Bay Bridge to use to pay insurance and operating expenses. At the same time the fact should not be overlooked not less than $600,000 has been taken from Northern California counties' gasoline taxes, every year since the Bay Bridge has been built, and given to the Oakland-San Francisco bridge to help pay its operating expense! To complete this unpardonable partiality and injustice on the part of the State Highway Commission, which has turned over all these millions to the Oakland - San Francisco bridge — ***Not one penny has been given the Golden Gate Bridge for any purpose whatsoever!***

thy cause. A few of the committee members have not completed their work and made final reports but, judging from the returns now in, the quota will be reached according to Mr. Bivans.

Those Canvassing.

The valley is being covered by the following workers: Dan Pardini, Norris Pinoli, Mrs. E. O. Hotell, Mrs. W. F. Clow, Mrs. Ernest Farrer, Mrs. W. McPhail, Mrs. R. M. Zane, Mrs. Vernon R. Rawles, Mrs. C. A. Tarwater, Ralph Cardey and Alva Ogles.

A Good Record.

A Santa Rosa paper last week published a report of a local service man that will be of interest to many here: "Sgt. Elwood Looney, is a member of the crew of The Thor, a General Sherman tank that in one day on Iwo Jima knocked out four medium Jap tanks, six concrete pillboxes, killed 30 enemy soldiers and probably killed 40 others in expending 125 rounds of 77 mm. shells and 6,000 rounds of machine-gun ammunition. The tank had its periscope blown away and nine holes shot in the hull and one track."

Who He Is.

Sergeant Looney is a graduate of the local high school and made his home here with his aunt and uncle, Mr. and Mrs. D. V. Presley, while attending high school. He enlisted in the Marines and has been in other invasion forces before Iwo Jima. Mrs. Presley had a letter from him, written March 5, which arrived March 15, saying he was busy but had taken time out to let her know he was still all right and that conditions on the island were improving. Mrs. Carrie Van Voast, of Ukiah, is an aunt of Sgt. Looney.

Addressed Clubwomen.

A large group of local Club women met for luncheon Saturday at the high school and listened afterwards to an interesting talk by Mrs. Sue Foster, State Chairman of the Press for Federated Women's Clubs of California. Her subject was, "Can We Meet The Challenge." Mrs. E. N. Knivila, President of Anderson Valley Unity Club, presided and Mrs. Foster was the guest of Mrs. B. J. Adams preceding the luncheon. She arrived on the 8:45 a. m. bus and departed at 3:00 p. m.

To Begin Sawing.

The Philo Lumber Company at Philo, which has been reconstructed and enlarged will resume operations next week. It is understood almost all their output will be used to fill government orders.

Miss Alice Hanes suffered a badly bruised leg Wednesday while in the hills when a heavy timber was rolled from the hill above her and struck a mossy log which added speed to its downward rush and the end struck her leg with considerable force as she stood in the roadway below. It was feared at first her limb was fractured, but her sister-in-law, Mrs. Ward Hanes, took her to Ukiah the following day and had the injury X-rayed. It was found to be a bad bruise but no fracture. Although not serious, it is a very painful injury.

Had Week's Visit.

Mrs. William Mellor returned to San Francisco Saturday after passing a week here with her stepfather, J. L. Rector, at his Yorkville ranch.

George A. Farrer and Harry A. Nissen were business visitors in Santa Rosa Wednesday.

Had Heart Attack.

Price Babcick, 86, suffered a heart attack last week from which he rallied and the past few days has shown some improvement.

Aviator Was Busy.

Staff Sgt. Leslie Wilkin writes from India of having completed 26 combat missions over Burma. He is serving as turret gunner on a B-24 bomber and as engineer.

Had Bridge Game.

Mrs. C. A. Tarwater was hostess at a luncheon followed by Bridge Wednesday. Covers were laid for the following ladies: Mrs. D. H. Van Zandt, Mrs. M. C. Gowan, Mrs. Martin Silvers, Mrs. M. D. Perkins, Mrs. H. A. Charles, Mrs. R. M. Batterson, Mrs. Albert Ferrell, Mrs. J. A. Brown and the hostess. Bridge prizes went to Mrs. M. D. Perkins, who held high score and Mrs. M. C. Gowan won consolation.

Home On Leave.

Robert Lawson, of Ukiah, who is enjoying a 24-day leave while his ship the California is in port, was here recently to visit his mother, Mrs. D. H. Lawson, and his brother, Postmaster George Lawson and family.

COAST RAINFALL

March is making up on the rainfall record which rather ran down in February when the weather was mostly clear and cold. The past week there has been much rain creating freshet conditions on most coast rivers. The rainfall to date is 34.88 inches.

Mr. Thornton had been a resident of Ukiah 17 years and leaves a wife, Elsie, and three children — Mrs. Myrtle Field, Ukiah, Mrs. Flora Lasater, Concord, and Ernest, who is in the United States Navy at Gulfport, Miss.; three brothers Charles and Lew, of Idaho, and Walter, Nebraska. Sidelights of Sadness

Being incidents connected with California's State Prisons as observed by A. R. O'Brien, editor of The Republican Press, while chairman of the State Board of Prisons of California

PITY ALWAYS PAYS THE PRICE

They are holding in San Francisco a negro parolee who has already confessed the brutal murder and attempted criminal assault of a young woman who was driving a bus down a city street early one January morning. A little girl has identified the prisoner as the fiend who raped her and her small brother insists the prisoner is the man who beat him brutally when he went to the aid of his sister when the accused was assaulting her. He is the same man who went into a Tavern in the city and in holding up the proprietor, shot a Shepherd dog which came to the rescue of his master during the time of the hold up. A San Francisco policeman is in the hospital with a dangerous bullet wound in the face and the officer's case is one that may take a fatal turn if complications, now feared, should arise. The prisoner acknowledges he shot the officer. Facts in possession of the police show the prisoner is almost certain to be proven the robber who has engaged in several unsolved street hold-ups and, perhaps, two more assaults on women. This man is 53 years of age. He is a negro and has served four terms in prisons about the country. The negro, the police assert, has confessed a dozen other major assaults and robberies. The murder of the bus driver, Winifred Cecil, was a cold-blooded, fiendish crime. The burly black man hid in the bus Miss Cecil, the driver, was to take out on an early morning run and the murderer of the young woman crouched down in a rear seat and permitted the girl to drive along a darkened and deserted street some distance and then arose and started toward her. The young woman, evidently, heard a noise the negro made, and, glancing in the mirror above the driver's seat saw her danger. She got up and, with the one article of a defensive kind, which was pitifully weak, fought with the giant colored man, using her ticket punch to strike with, but proved no match for him. The sole facts the police had to rely upon in reconstructing the case until the negro confesseed, show Miss Cecil was knocked down while fighting and that the murderer made an attempt to rape her. What caused him to desist before accomplishing his purpose has not developed, but rather than flee the scene and invite possible arrest when his victim would have been able to describe him to the officers, the negro shot and killed the girl and her body was accidentally discovered by an early morning workingman enroute to start his shift.

The case of this degenerate darky is typical of numbers of other liberations of undeserving men from prison before their full time is served. It does not require a bit of more than ordinary common sense to determine when a prisoner will make a fairly good citizen after he has served a prison term, but, in instances like that of the man now held in San Francisco, who had served in four penitentiaries and all for crimes of violence, a prison man, inded, must be actually stupid to consent to his liberation. Close confinement of a prisoner permits a study and discovery of his make-up and any parole board member who has backbone and an honest obligation in mind to protect society, as well as the prisoner who comes before him, will think a long time before he turns loose a man, whose every characteristic indicates he will prove a recidivist, if he is given a chance to get outside the prison walls.

Of course no parole officer has the power to keep a man in prison longer than the law specified he should be confined, but, at the same time, his conscience should tell him it is best, in instances where the man is a dangerous criminal, he should be kept behind the walls just as long as possible—in other words he should be made serve the full term the law says he should atone to the public for. When you parole a vicious degenerate criminal you simply run the chance of officers or innocent members of society being killed and making it necessary to either later execute the man who was set free or reincarcerate him once more in the penitentiary. Really, a "soft" parole board member is more dangerous to the public than is the killer he frees.

Transformer Failed

Consternation all over the valley last Friday morning was caused when toasters, water faucets and milking machines failed to operate. The transformer had burned out at the electric plant the night before and the valley was without electricity until about nine o'clock Saturday morning. It was inconvenient for the intervening time, but we shall probably learn to take such things in our stride. There are worse happening to our boys in the war.

Saw The Accident

Tuesday morning, March 20, one of a flight of four Navy fighter planes which were over Mendocino county, crashed in the hills of Round Valley about seven miles southeast of Covelo at 12:10 o'clock. Raymond Dyer and a Mr. Fisher, who hearing the faltering motor, looked for the plane and saw it crash leaving a trail of smoke behind it on its descent. They also saw the pilot bail out, his parachute open, but it is thought he left the plane at too low an altitude for a successful landing as his body was found about one fourth mile east of the wreckage. Mr. Dyer and Mr. Fisher immediately notified Deputy Sheriff Charles Lovell, who went to the scene of the tragedy without delay. A company of men—Raymond Dyer, Jack Lovell, Clifford Thompson and Ray Wright joined in the search for the plane, discovering it very near where Messrs. Dyer and Fisher had thought it struck. Raymond Dyer discovered the body which had to be borne on an improvised stretcher about a mile before reaching the Navy ambulance which had been sent from the Santa Rosa Navy Base.

Plane Demolished

At first the type of plane could not be determined as it had been so utterly destroyed there was absolutely nothing worth salvaging.

Victim From Florida

It has since been learned by Navy disclosure the pilot was Ensign Leon Frederick Kmard, USNR, and his home was in Lake City, Florida.

One Still Missing

Of the other three planes in the flight, one landed in Ukiah, one at Alameda and the third is still missing.

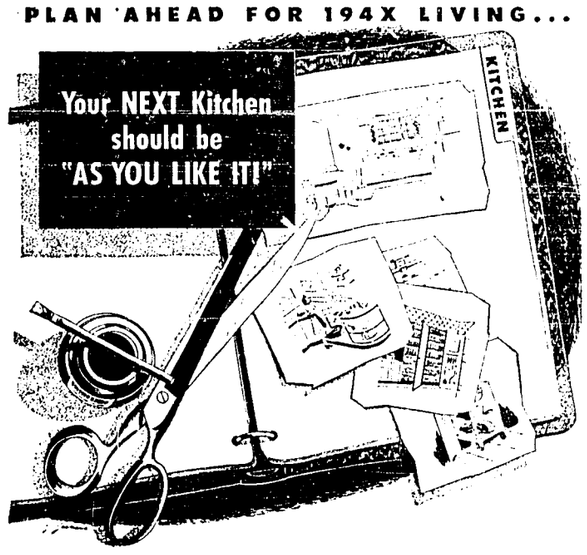
PLAN AHEAD FOR 194X LIVING...



Plan now for functional arrangement, complete equipment and adequate wiring

Be really positive, insistent and "fussy" about the functional arrangement and convenience details of your next kitchen. Clip ideas you like out of magazines and paste them in your new home scrapbook. Save kitchen layout plans and articles. Careful planning now will result in a 194X kitchen that will be convenient to work in.

Functional planning ties the kitchen together for easier work by handy arrangement of shelves and cupboards in relation to your range, sink, and refrigerator or food storage space. Food can be prepared and cooked with a minimum of time and trotting about.

Your 194X kitchen will be well lighted by a ceiling fixture—probably a smart new fluorescent lamp, together with local lighting at range, sink, under kitchen cabinets and other work centers. Adequate wiring, provided by several circuits, will take care of the many plug-in outlets for all the kitchen appliances you now have or the new ones you will buy after the war.

Now is the time to plan ahead for 194X the new era of the joy of living in your present or future home.

Meet the "workhorse" of the railroads

Not glamorous, not a "show-off"—the unpretentious box car. You never see it twistling with Sherman tanks, 105 mm howitzers, 10-ton trucks and jeeps, like the flat cars and gondolas. It's just a modest workhorse—doing one of the biggest war transportation jobs of all.

When you see a mile-long string of box cars, just think of this. These plain, unassuming cars are carrying the war to Japan. Inside are airplane engines, parts to outfit ships, medical supplies for our men in the Pacific, millions of tons of foodstuffs and ammunition and small arms.

For nearly all the war cargo that goes to sea, goes by rail first. And this huge transportation job is just as important as fast production in our war factories.

The humble box car best symbolizes the fact that transportation is not the job of one railroad. It's the job of all railroads working closely together—pooling their resources and exchanging equipment and facilities.

That is why you see on Southern Pacific rails the box cars of nearly every railroad in the country—New York Central, Erie, L & N, Illinois Central, Northern Pacific, Union Pacific, Burlington, Rock Island, Pennsylvania, Southern, Western Pacific, and Santa Fe to name just a few.

As the pressure on Japan increases, you will see an increasing number of war freights rolling on Southern Pacific's 15,000 miles of line. That's because Southern Pacific serves the major West Coast ports of embarkation and more military and naval establishments than any other railroad.

When you see these freight cars, representing almost every railroad, let it remind you how all the railroads are working closely together to deliver the stuff our fighting men need—on time!

Mrs. Shoesmith will take the evening bus for Geyserville, where she will be a weekend guest in the home of her mother. Mrs. Olive E. Busch will accompany the State President as far as Boonville where she will visit over night with her sister, Mrs. K. B. Wallach. It is expected Mrs. R. R. Byrnes, President of the Saturday Afternoon Club and Mrs. W. H. Brown, incoming county president, and other members of the two other Federated Clubs of Ukiah will also attend.

An interesting program, consisting of musical numbers and a fashion show was presented by the program chairman, Mrs. James E. Busch. To introduce the program theme, Mrs. R. R. Byrnes sang "Easter Sunday With You" to piano accompaniment played by Mrs. Arthur Schilder.

The brown velvet going away dress, a part of Mrs. Thomas Howard's trousseau, of the 1880 period, was modeled by Mary Ellen Hovey. A brocaded red velvet polonaise costume from about the middle of the past century belonging to Mrs. G. A. Sturtevant was worn by Mrs. E. R. Lindsay. A shirtwaist costume of the 1916 period belonging to Mrs. William Bromley, was worn by Mrs. Ben O. Foster. A Paris model bearing the original 1926 label was modeled by Mrs. E. E. McNeil. A 1932 evening gown was worn by Mary Ellen Hovey.

A number that attracted much attention was a wedding dress of battenburg lace. It took Mrs. Jane Gibson four months to make it for her daughter, Mrs. Ina Rush. The costume was modeled by Mary Ellen Hovey. The old styles possess much grace and charm and were greatly admired but no one would wish to exchange the simple, comfortable present day fashions for the cumbersome and complicated vogues of the past.

Miss Esther Rodwine local modiste, displayed the very latest modes in street, afternoon and evening dresses, selected from the stock of Esther's Shoppe. The models who wore the gowns in a very alluring manner were Mrs. Della Pauli Mitchell, Dr. Ruth Green Maynard, Mrs. Marcelle Goodwin, Mrs. Virginia Basel and Mrs. Edith Horan. Each costume was accompanied by suitable accessories. The spring trend seemed to be toward gay flower-like colors displayed either in the gowns or as an accent in the accessories. No doubt the psychological effects of the beautiful bright colors are designed to resist the darkness and depression of the war period and to elevate the morale of the wearer and the beholder.

The former Miss Betty Munson, now Mrs. Myron Slaby, modeled the beautiful white satin wedding gown which she wore only a month and a week ago at her own nuptials.

The clubrooms were beautifully decorated with narcissi in yellow flower pots and flowering quince and spirea. Refreshments consisting of tea and cake were served by a hostess committee including Mrs. Lance Cox, Mrs. P. B. Westerman, Mrs. R. R. Ingels, Mrs. A. L. Ormsbee, Mrs. L. B. Williams and Mrs. Milton Middleton.

The next meeting will be held April 14, with Mrs. E. H. Balyeat acting as program chairman. She will present Mrs. C. M. Fulkerson in a book review.

MOTHERS CLUB

Mrs. Nellie Hunt will be hostess to the Mothers Club, Tuesday, April 3, at her home on Mill Street. Mrs. Harold Kirk will be co-hostess.

LEGION BIRTHDAY ENJOYED BY THE VETERANS

Details for the Twenty-Sixth Anniversary Party of Lewis White Post of the American Legion Wednesday evening were very successfully handled by a committee made up of Auxiliary Members W. A. German, Howard Salls, J. B. Bradshaw and Earl Mersinger, and Legionnaires William Schmidt and Don Alexander. Almost 100 enjoyed the affair, which took place at Veterans Memorial building, and partook of a bountifully menued repast perfectly served. The tables were handsomely decorated with daffodils, ferns and many bright colored spring flowers. Auxiliary President Andrews presented the birthday cake to Commander E. A. Eversole and presided at the cutting of the culinary gem. Claude King, District Commander, of Fort Bragg, was guest speaker and explained the applications of the features of the Bill of Rights as it was applicable to Veterans of this part of the State. Post Service Officer Herb Cochrane also spoke interestingly on the Bill of Rights and had his subject well in hand. Mr. Cochrane later led community singing. Navy night, which will be a big affair, will be held Wednesday evening, April 4, at the Memorial Building and a very elaborate and intensely interesting program will be provided to which the public is invited.

LADIES AUXILIARY MET

The regular meeting of the Ladies Auxiliary of Ukiah Post No. 1900, Veterans of Foreign Wars, was held in Veterans' Memorial Building, Thursday evening with Mrs. Maude Clark presiding. Mrs. Elsie Dory was initiated in the Auxiliary. The beautiful and impressive initiation ceremony was conducted by the regular officers. The resignation of Mary James, of Lake county, was regretfully accepted. An Auxiliary is being organized in Lakeport and in order to become a Charter member of that organization it was necessary for Mrs. James to resign from the local body.

The essay contest on the subject of "What America Means To Me" closed on Friday. The judges, John W. Taylor, Mrs. Charles Kasch and Wayne P. Burke, will render their decision as soon as they have time to canvass the papers carefully. In case it may be decided the Department Encampment can be held, delegates to the convention were elected as fellows: Lily Forman, Lorene Brown and Louise Gibson. Alternates named were Angie Wallach, Ernestine Davis and Fern Von Schritz. The Charter was draped in memory of Jennie Ohman ,a well-known department officer who recently passed away.

Officers of the Post and Auxiliary will be installed at a joint public ceremony at a meeting at Veterans' Building April 28. Drill teams from the Bay area will be present and add to the beauty of the ceremony by their marches and the symbolic figures they form. Fran Ossman, President of District 12, and Thos. McDonald, Commander of the District, will be the installing officers. Plans are being made for a 6:30 dinner to precede the installation meeting of which Mrs. Irene Schmidt will be chairwoman of arrangements.

At the close of the business session members of the Post joined those of the Auxiliary in the dining room for refreshments, consisting of sandwiches, cookies and coffee. The tables were decorated in an Easter motif. Colored eggs in green nests of parsley formed a highly decorative feature. The hostess committee included Mrs. Ethel Ruddick, Mrs. Leo Runkel, Mrs. Lily Ross and Mrs. Velma Ruddick.

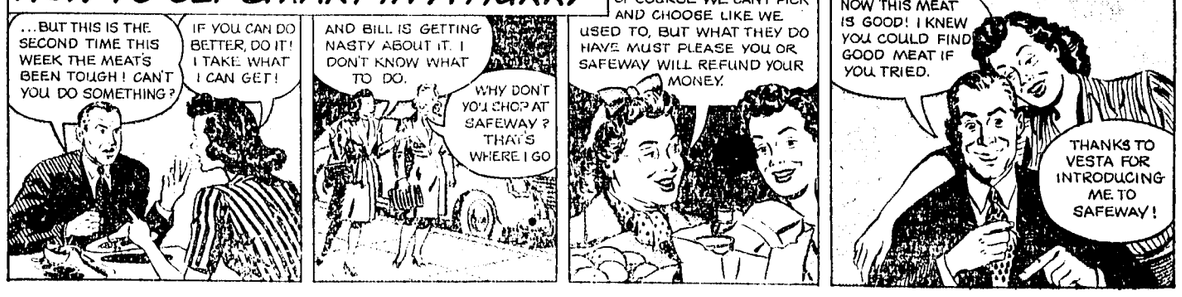
HOW TO GET SMART IN A HURRY



SOLDIER GETS FINE SEND-OFF

Mendocino Indian In Fighting Outfit Of Big War

Proud, as she may well be, of having a son a member of as fighting an outfit as are the "Railsplitters," Mrs. Aura Want, formerly of Covelo, but now residing in the Ukiah valley, is showing friends the original of a letter sent to Battery A of the 84th Infantry Division, of which her son Filbert Anderson is a member.

In Service Three Years.

The young man is just 21 and has been in service three years. The American people can look with genuine approval on the valor displayed by the Indian boys who have enlisted, are fighting and have died all over the world for us. Like what was done by the Eighty-fourth Infantry, Indian boys, in all assignments have duplicated.

What Letter Says.

The letter of Major General Bolling reads:

Headquarters 84th Infantry Division, Office of the Commanding General, APO 84, United States Army, March 5 1945.

To: All "Railsplitters" (84th Infantry Division and attached troops):

You men can accomplish anything you set out to do!

At Gellenkirchen, Beeck, Wurm and Lindern you drove through the length of the Siegfried line. In the Ardennes you went on the defensive for a brief period and turned the advance of the German counteraffensive, then pushed the enemy back on his heels under the most impossible fighting conditions. You crossed the Roer River, broke through the German line and in five days advanced 42 miles to the Rhine River.

In the advance to the Rhine you covered a greater distance than any other division on the line—through heavier fighting. After reaching a point only 4500 yards from the river, your direction of advance was changed to the north, giving you still another nine miles to go. Without hesitation, you continued to advance.

Upon reaching your objective, after long, hard, gruelling days and cold, sleepless nights, you still wanted to push on, and asked for authority to cross the river.

You have accomplished what many thought was impossible. Without your drive and determination, without your spirit and courage, the drive would not have been accomplished as expeditiously—the credit is yours.

Once again I want to congratulate you for a job well done a mission successfully accomplished. Once again I say I am, as you are, very proud to be a "Railsplitter."

A. R. Bolling,
Major General, Commanding.

THE QUESTION OF TAXES STATE RESIDENTS WILL HAVE TO FACE

Ten days ago one of the influential residents of Mendocino county and also a heavy taxpayer, wrote a letter to Senator George M Biggar in reference to the serious question of taxes now being faced by the State of California. An answer came back to this Mendocino county citizen, whose name is not used, as he does not care to appear in the controversy, and, because it has great merit, the letter as Senator Biggar wrote it, is reproduced. This newspaper urges every subscriber of The Republican Press to read the letter. It is full of sensible reasons and presents facts which everyone who pays taxes, and we will all be doing that from now on, should be acquainted with

Senator Biggar's letter follows:

Sacramento, March 15, 1945.

Dear Sir:

SENATOR GEORGE M. BIGGAR

Your letter of March 15, relative to the tax reduction bill now pending in the Senate, came to me this morning. You were considerate enough to enclose I need not reply, because of the mass of work confronting us in the legislature this year, but the subject of your letter is such it needs discussion so you and others in Mendocino county may see both sides of the question.

Sees No Near End.

No one can gainsay the fact taxes are high State, County and Federal and that they will go still higher if we are to carry on and maintain our form of economy. Unless I am in error in reading the future, all who pay taxes (and that is all of us) must pay taxes until the sacrifice becomes on a par with the sacrifice the boys at the front are making. I do not believe we can view taxes now in the same light we did prior to the war. If we are to retire the colossal debt the war and its aftermath will bring, we, everyone, will have to pay of our earnings even down to the limit that will leave us the barest minimum for our needs. Taxes to the breaking point, added to a currency inflation by increasing the price of gold to perhaps $100 per ounce, seems inevitable, if we are to carry on in the usual manner of life we have developed in the United States, and at the same time retire the National debt and balance the National budget. I have talked with many leaders of thought on the fiscal problems confronting us, and the majority opinion supports the suggestions made above.

Claims No Wizardry.

I freely confess I am not a student of taxes, nor do I claim any intuition as to what the future holds. I am trying to analyze the facts as they have been in the past and as they are today.

What Faces Us.

Two great issues are involved in the present problem before us. One is the need for providing the necessary funds to maintain our usual manner of living and continue the course of development of our resources and provide for the services the people of the state demand. The other is the necessity of providing the tremendous amount of money to meet the impact of postwar problems and meet the public debts. If we are to preserve our mode of life these two things must be carried on together.

Only One Way.

To meet these two gigantic responsibilities will require courage, wisdom, foresight and a deep spirit of sacrifice. I know I do not possess the wisdom nor the foresight necessary to see the answer to the problems. I do have the courage of following the course my intelligence tells me is best, and I will make the sacrifice the situation demands. It is not so easy for us who must make the decisions, because future developments may prove us right or perhaps more easily prove us wrong. In any event we must make the decision. All we can do is to decide on the basis of the facts as we know them.

No Guesswork Ahead.

It is impossible for us to guess what will happen in the future. That goes for me, for you, and all of us. We each may have definite beliefs or fears as to what will happen. However, we reason with some degree of accuracy on what should be done to meet the problems as we know them. We might even go so far as to believe with confidence that what happened in the past will happen again. This might be a sound basis on which to act now to prepare for what could happen when the war ends and new problems confront us.

The Real Facts.

Coming now to the specific problem of restoring the state taxes to where they were before the reduction made in 1943, or to continue the reduction for another two years, I believe there are two sides to this problem.

One View Seen.

The two main arguments for continuing the reductions are the state has a large surplus in its treasury and does not need the money that restoring the rates to the pre-1943 level would bring. The other is the Federal government will continue to exact more and more taxes indefinitely. To these arguments is added the fear, or belief, that when there is a surplus in the treasury, extravagant spending is inevitable.

Something To Fear.

The other side of the problem is the fact that only a few short years ago the state was deeply in the red and was operating on registered warrants, in other words, deficit financing. The war boom changed all this, the deficit was cleared and a large surplus was built up. It is reasonable to assume the war boom will subside rapidy. The surplus will then cease to grow. New demands on the state are likely to appear very shertly when the war ends. Then the surplus will start to dwindle. A rapid decline to industries entailing a heavy unemployment period while industry is reconverting to peacetime needs, can easily take place. This would make inroads on the surplus, to a degree no one now can estimate. Add to this possibility the known fact all State institutions have been neglected the past 15 years, because of the depression and the war, all of which must be restored, improved and enlarged, and it is easy to see heavy demands will be made on the State immediately when war ends. These demands cannot be denied. They must be met. The State institutions were heavily overcrowded before the depression. They could not be serviced or enlarged during the depression because there was no way to raise the necessary funds, as the people were facing bankruptcy, industry was at a standstill and no one was able to pay taxes. Farmers mortgaged their farms and industry mortgaged its plants to pay taxes. Under those conditions, the State was unable to meet its obligations to its people. Then came the war, which again made it impossible for the State to do its duty toward its charges. On top of this we have an increase of near two million in population. And on top of this, again, the aftermath of the war will greatly increase the population of all States in situations. This will make imperative new buildings, new facilities, new personnel and heavy increase in general support costs, as both salaries and materials will remain high, or may even go higher. The State can not avoid these things and we must prepare to meet them. To meet the minimum requirements will entail immediate construction of new buildings, for hospitals, schools, institutions for the blind, crippled children, laboratories, state government buildings, prisons, youth correction schools and numerous other structures. All of these must be equipped, serviced and manned by new personnel and supplied with food and other supplies. This will take millions of dollars.

They Face Difficulty.

Another angle to the problem is the condition of the cities and counties. Both have suffered in the same manner as the state because of the dual tragedy of depression and war. Neither have been able to meet the demands for new structures or services the depression and the war brought to them. They, too, are carrying on with obsolete and inadequate buildings and equipment, and they, too, face increased demands on their resources growing out of the war itself and the great increase in population. The cities and counties have but one source of tax revenue. That is ad valorium tax on property. If the cities and counties are expected to meet the increased demands forced upon them they must raise property taxes to heights which could impair the whole system of private ownership.

As To Subventions.

The mounting demands made on city and county governments due to our mode of living, has developed the system of subventions from the State. We may or may not approve of the theory of subventions, but the complete inability of the cities and counties to meet the demands made upon them by a fast-growing state and new obligations growing out of new inventions, such as the automobile, and new ideas of services to the people, forced the state to grant subventions to prevent confiscation of property.

Force Factors Divided.

This brings us to the question before the Legislature today, shall we increase subventions to the cities and counties to help them meet the impact of postwar problems, or shall we reduce the state's revenues and let the cities and counties risk the necessity of higher property taxes? If the state tax reductions made in 1943 are continued there can be no subventions to the cities and counties. That is certain. It is this fact that caused the Senators from the rural counties to ask for delay in passing the bills before us so that time might be had to find a solution of the problem. There was also resentment over the attempt to force a vote on the tax bills without consideration of the feelings of the rural Senators. This, of course, is of no importance in the main elements of the problem, but it is a human factor which must be considered.

Don't Overlook This.

From the State's angle we have this to consider: If the reduction in taxes made in 1943 is continued, then it is very probable the State's revenue will decline immediately with the end of the war, and the increased demands that peace will bring, as mentioned above, will soon absorb whatever surplus there may be, and the minimum current expenses of the State will require all of the revenue, or could easily require more than the present tax levies will produce. Then, in a short time, we will be facing a deficit again, which will mean curtailment of services or higher taxes. It will also completely preclude any aid to cities and counties which will be denied the opportunity of bringing up their plants to meet demands made upon them for roads or business.

The Stand Taken.

I have tried to give you the picture of the problem as it present stands to me. What I do may be right or it may be wrong. But it will be the best I know how to do.

Some of the implications in some elements of the problem are terrifying. They are deep enough to make us wonder whether or not we can survive the impact of peace and continue our way of life. We can, if we have the courage to make the necessary sacrifices. Pooling the wealth of all of us will save the day. Corruption and selfishness could easily destroy us.

HOPLAND NEWS OF PAST WEEK

Minor Events Of The Last Few Days In Sanel Valley

Special Correspondence of The Press

HOPLAND, March 26. — The meeting of Hopland Garden Club occurred at the home of Mrs. Ruth Rochester, Wednesday afternoon. Many members turned out to enjoy a happy afternoon of get-together which included plans for the April meeting, games and refreshments. Mrs. Frank Harman, Club President, opened the session and called attention to the card party to be held after Easter at the home of Mrs. Frank Brennan at Valley Oaks Farms. It was decided to have the pruning of small trees and shrubs on the grounds of the local Grammar School attended to. Then came a reading of a poem by Mary Stewart, titled "Collect," after which games, in charge of co-hostess Fern Jones, were played. The answers to these games centered around names of flowers and were very appropriate for a Garden Club gathering. Prizes were won by Mrs. Joe Alvarez, Mrs. Mattie Hopper and Ann Wenger, and refreshments were served—assorted home-baked cup cakes in paper containers of pastel colors, coffee or tea—The motif centering around the Easter season was employed in decorating. KATE SMITH asked to write this message on Saving Used Fats!

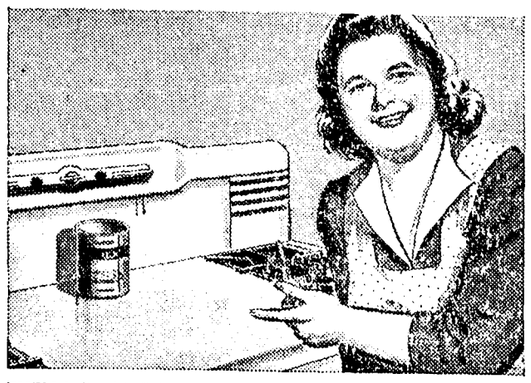
"The help of every woman is needed in saving used fats for hundreds of battlefield and home-front essentials. But some of us don't know all the ways we can do it. Here are a few points I've found helpful."—Kate Smith

MANY WOMEN SAY: *"But I never have fats left over."* Certainly it's good economy to re-use your fats...but there's always some left over even after that...and that little is more important than you can imagine. Only one tablespoonful of used fat will help make 5 machine-gun bullets. So there just can't ever be too little to save! Come on, *everybody*, scrape your broiling pan, your roaster, skillet. Save meat trimmings and scraps of fat left on plates.

OTHERS TELL ME: *"But my fats are often too dark to turn in."* It doesn't make a mite of difference how dark or blackened ...or what smelly things like onion or fish you've cooked in your fat. Every drop of it will help make parachutes, synthetic rubber, soaps for the fighting and war fronts. Don't feel ashamed to hand it in to your butcher. If you save every bit of fat you possibly can, you're doing a job to be proud of!



THEN YOU HEAR: *"But what sort of container will I use?" Any* kind of tin can will do. The next time you open a can of fruit or juice or soup or vegetables, save it. But please don't use glass ...it almost always breaks and makes the fat difficult to salvage. When the can is full, take it to your butcher. For every pound, you'll get 2 red points. If you have any difficulty disposing of your fats, call your Home Demonstration or County Agent.

Had Severe Test.

When the Japs overran the Philippine Islands three years ago, Mr. Johnson and his family were on one of the small islands. Mr. Johnson was a mining engineer working on the island. Instead of submitting to the Japs, Mr. Johnson and wife and small daughter bundled up what supplies they had and made for the hills.

Their Condition Fair.

Mr. Johnson wrote his brother the family were in "fair shape" and were receiving food and medical treatment at an American camp. He also wrote they expect to be in the States in a few months.

Took Milk Supply.

When Mr. and Mrs. Johnson went into the hills to avoid the Japs they took with them their most valued possession, a considerable amount of canned milk, which, because of bad water conditions, was necessary to keep their little baby alive.

From Hand To Mouth.

Thereafter they went ragged and shoeless and lived a nomadic life. There never was a day they were certain of having food for the following day. Many times they were almost within the grasp of Jap patrols, roaming the island. Franklin Johnson, in addition to having a brother at Fort Bragg, is a brother of Congressman J. Le Roy Johnson, of Stockton.

Mrs. H. Ferguson was in town shopping from her Willits home Friday. Mr. Ferguson is employed by the Northwestern Pacific Railroad Company at Willits.

Mr and Mrs. Luther Vann, of Napa, were here Saturday and while in town renewed their subscription to The Republican Press.

STATE THEATRE'S "APRIL SHOWER OF HITS" PROMISES A MONTH OF OUTSTANDING TREATS!

STRONG LINE-UP OF ATTRACTIONS SCHEDULED FOR LOCAL SHOWING

Twenty Great Features From All Hollywood Studios Included In Outstanding List Of Major Hits To Be Shown in April

Ushering in a month of outstanding screen entertainment, The State Theatre's "April Shower Of Hits" brings Ukiah show-goers more than 20 screen treats heralded as the best that Hollywood studios can offer.

Opening the "April Shower Of Hits" on Sunday, April 1, is the ace Warner Brothers attraction, "To Have And Have Not," starring Humphrey Bogart and newcomer Lauren Bacall in the adaption of the Ernest Hemingway adventure novel. Featured in the film are such favorites as Walter Brennan, song-writer Hoagy Carmichael and Dolores Moran.

The cream of every major Hollywood studio is represented in the list of attractions and included among them are such talked-about hits as "The Doughgirls," starring Ann Sheridan, Alexis Smith and Jane Wyman; "The Conspirators," with Hedy Lamarr and Paul Henreid; Charles Boyer and Irene Dunne co-starred in the romantic treat, "Together Again"; the all-star triumph, "Hollywood Canteen," which boasts a cast of 62 stars and several outstanding orchestras; and the new Alan Ladd romantic drama, "And Now Tomorrow," from the Rachel Fields novel in which he is co-starred with Loretta Young.

"Belle Of The Yukon," the technicolor Alaskan adventure, stars Randolph Scott, Gypsy Rose Lee, Dinah Shore and Bob Burns; "The Very Thought Of You," with Dennis Morgan, Eleanor Parker, Dane Clark and Faye Emerson, is included in the list as is the new romantic treat, "Sunday Dinner For A Soldier," with Anne Baxter and John Hodiak.

Probably the most talked about and most eagerly awaited screen event of the season is the technicolor outdoor romantic hit, "Frenchman's Creek," which comes during April to The State.

Co-starred in this brilliant hit are such favorites as Joan Fontaine, Artruro de Cordova and Basil Rathbone. Many Ukiahans will recognize exterior scenes and the players in them, for a great part of the picture was filmed on the coast near Fort Bragg.

Other great hits provided in The State Theatre's "April Shower Of Hits" include the Edward G. Robinson-Joan Bennett mystery, "The Woman At The Window"; the official Navy story of the now famous Task Force 58 in "The Fighting Lady," which is narrated by Robert Taylor; and the Jack London adventure epic, "Alaska," featuring Margaret Lindsay, Kent Taylor, John Carradine and Dean Jagger.

These, as well as a number of other ace screen treats, are scheduled for showing in Ukiah during The State Theatre's "April Shower Of Hits."

ACTION DOMINATES NEW BOGART FILM

A roaring adventure story of two independent souls in Vichy-controled Martinique, Warner Bros.' new adventure romance, "To Have And Have Not," a Howard Hawks production, opens Sunday at The State Theatre.

With a cast headed by Humphrey Bogart, the film also features brilliant newcomer, Lauren Bacall, Walter Brennan, Hoagy "Stardust" Carmichael, Dan Seymour, Dolores Moran and Sheldon Leonard. The film is an exciting tale of the love that smoulders between a slee-eyed blonde and a hard-hearted sea skipper; and of the web of political intrigue that is woven around them by the hands of Vichy's Gestapo.

From a novel by Ernest Hemingway, "To Have And Have Not" was directed by Howard Hawks.

'FRENCHMAN'S CREEK' COMING SOON

Artruro de Cordova and Joan Fontaine in a scene from "Frenchman's Creek," soon to be shown at The State Theatre. Exteriors of this technicolor hit were filmed in the Fort Bragg region.

STAR-STUDDED FILM IS APRIL ATTRACTION AT STATE THEATRE

As a proud salute to our men in uniform fighting our war on varied battlefronts — and as a stirring tribute to the people of the motion picture industry, whose unceasing efforts have done much to prevent breaks in soldier morale, Warner Bros. have fashioned their newest musical hit, "Hollywood Canteen," which comes soon to the State Theatre.

Read This List.

Star-studded to capacity with enough entertainment names to make 10 motion pictures, the musical's cast includes Jack Benny, Joan Crawford, Bette Davis, John Garfield, Jack Carson, Jane Wyman, Alexis Smith, Joyce Reynolds, Joan Leslie, Robert Hutton, Jimmy Dorsey and his Band, Dennis Morgan, Carmen Cavallaro and his Orchestra, and Joe E. Brown, just to mention a few of the total of 62 top names in the film. Directed and scripted by Delmer Daves, "Hollywood Canteen" combines the merriment of a musical revue with the pathos and humanness of a warm romance.

'THE CONSPIRATORS' COMING SOON TO THE STATE THEATRE

Warner Brothers' newest excursion into the field of romance and intrigue, "The Conspirators," opens at The State Theatre Wednesday, April 4, starring Hedy Lamarr and Paul Henreid. The vehicle also serves to bring back that priceless triumvirate of international knaves composed of Peter Lorre, Sydney Greenstreet and Victor Francen.

Tells War Action.

Fredric Prokosch's widely read novel of the same name provided the foundation for the film which depicts graphically the stirring account of the hidden war carried on against the Nazis from the neutral city of Lisbon.

Mr. Henreid and Miss Lamarr assume the burden of the film's sympathetic lovers. Messrs. Lorre, Greenstreet and Francen portray furtive figures of frightening propensities and are surrounded by a competent supporting cast which includes Joseph Calleia, Carol Thurston, Edward Ciannelli, Kurt Katch and Monte Blue.

Dean Jagger, former schoolmaster, is now appearing in "Alaska," stirring Jack London story.

ROMANTIC COMEDY HAS DUNNE-BOYER TOGETHER AGAIN!

The words "together again" have always had a magical effect on the movie-goer. They have always meant that two or more of their favorite stars were once more to gaze into each other's eyes with that look. The news, therefore, that one of the most popular teams of all times, Irene Dunne and Charles Boyer, will return in Columbia Pictures' "Together Again," which will bow in at The State Theatre soon, will be greeted with enthusiasm.

Better Than Ever

First captivating audiences as a team in "Love Affair" and later in "When Tomorrow Comes," Dunne and Boyer have been separated for some time. But movie fans have a way of expressing their desires and getting them heard by the film powers. So here are Dunne and Boyer together again, but with an additional something — Charles Coburn.

Told What To Do.

"Together Again," according to advance reports, is a gay, romantic comedy about the new mayor (Irene Dunne) of a small town in Vermont and a sculptor from the big city. When lightning strikes the statue of her dead husband, ex-mayor of the same town, Irene decides to go to New York and contract for another one. She is advised by her crochety father-in-law (Charles Coburn) to have a good time besides, buy a gay hat and get away from the confining influences of civic virtue.

Is Well Supported.

Since the sculptor turns out to be Charles Boyer, it can be imagined quite easily that said instructions from Coburn are not difficult to follow.

"DOUGHGIRLS" DUE AT STATE

Take a crowded hotel suite originally reserved for the honeymooning of two, add an assortment of characters ranging from a female Sergt. York to a Wet Wash King, throw in a wolfish broadcaster, a female judge, a soy-bean-to-fuel process, and three lovely ex-chorus girls whose marital status is being investigated by the FBI, mix well, and you have "The Doughgirls," Warner Bros.' hilarious new comedy which comes April 6 and 7 to The State Theatre.

It's A Sidebuster.

Heading an imposing cast are a glittering array of many stars of former Warners' successes—Ann Sheridan, Alexis Smith, Jack Carson, Jane Wyman, Charlie Ruggles, Irene Manning and Eve Arden. An excellent supporting cast includes John Ridgely, John Alexander, Craig Stevens, Barbara Brown and Alan Mowbray.

Fan Mail Record

Fans don't forget! Though many of their former movie idols now in the armed forces have been inactive on the screen for over two years, fans are still faithful. Take Alan Ladd, for instance, who holds the all-time fan mail record with the peak figure of 60,000 letters a month. Ladd, co-starring with Loretta Young in Paramount's "And Now Tomorrow," coming soon to The State Theatre, saw his mail steadily increase during the entire year he spent in the Army and it is still climbing. "And Now Tomorrow," Ladd's initial return picture, was adapted for the screen from Rachel Field's romantic best-seller and brings together for the first time since "China," the team of Ladd and Miss Young.

Yukon Romance, Fun

A pair of stormy frontier romances and a vast amount of skullduggery bring about most of the hectic happenings in "Belle Of The Yukon," International's current Technicolor musical extravaganza. The tuneful show stars Randolph Scott, Gypsy Rose Lee, Dinah Shore and Bob Burns, with Charles Winninger heading the featured cast. Johnny Burke and Jimmy Van Heusen wrote the song hits.

Pinky Sings Latest Song In A Western

Pinky Tomlin, composer of one of the biggest hit songs of the decade, "The Object Of My Affections," sings a brand new tune in Columbia's Pictures' musical Western, "Sing Me A Song Of Texas." The new ditty which Tomlin introduces in the picture is titled "I'm Gonna Invade Your Heart."
